

Pozitív Élet Alapítvány (Positive Life Foundation)

The goal of the Foundation is to promote the elimination of exclusion and to change the social attitudes of HIV infected people, AIDS patients and their relatives to help their mental and physical well-being, in their narrower and wider environment.

We have supported this group since at least 2019.

In 2022

- GSK, through our distributor Phoenix Pharma Zrt. In Hungary, provided HUF 600 000 to sponsor an HIV session at Humen Film Fest, which involved screening of an HIV-related movie and a round table discussion covering HIV prevention, screening and healthy life with HIV as topics.

Our support represented ~7% of their overall income.

Mályvavirág Alapítvány (In English: The Mallow Flower Foundation)

The Foundation “for the Cure and Prevention of Cervical Cancer” was established in 2013 and deals specifically with cervical cancer prevention and rehabilitation. The Foundation has become a well-known entity for HCPs, patients, authorities, lay public and the media in the field of cervical cancer prevention and lay public education.

We have supported this group since 2015.

In 2020:

- GSK provided 2,000,000 HUF to support a programme focusing on the patient journey.

Our support represented 5% of their overall income.
