

Term	Definition
Corporate scope	GSK will issue one report for each country showing all Transfers of Value
	made to HCPs / HCOs in that country by any Company of the
Departing data	GlaxoSmithKline Group (GSK, ViiV Healthcare and by GSK Vaccines).
Reporting date	GSK has defined two types of Transfers of Value for Reporting Date
	purposes: - a <i>Monetary Transfer of Value</i> is a payment of money made to an
	HCP/HCO by GSK either directly or through an intermediary (for example,
	fees for service). The Reporting Date for these Transfers of Value will be
	the actual payment date, irrespective of when the event happened (for
	example, when a consultancy fee is paid, not when the work took place).
	- a Non-monetary Transfer of Value is a benefit received from GSK either
	directly or through an intermediary <i>without</i> a monetary payment (a flight or
	fee paid to a travel agent or event organizer, for example). The Reporting
	Date for these Transfers of Value will be the event date (for example, when
	the event took place).
Value Added Tax	GSK has taken the decision to report values including VAT wherever
	possible due to the complexity of VAT regimes around Europe and the
	inconsistency of whether VAT may or may not be reimbursable depending
	on where the transaction took place and the country of residency of the
	HCPor HCO. All other taxes are included in the reported values.
Currency	GSK records Transfers of Value in the currency in which the transaction
conversions	took place. The report will show all values in the currency of the country in
	which the report is made.
HCPs employed	GSK will not report payments made to HCPs who are employed by GSK as
by GSK	staff members. GSK considers that it would be inappropriate to the disclose
	an employee's salary, bonus, expenses and benefits.
Multi-year	Transfers of Value are reported on the relevant Reporting Date (payment
contracts	date or event date – see above) irrespective of the duration of the contract.
Individual	GSK has committed to disclose, on an individual basis, the transfers of
Disclosure	value to HCPs and HCOs (as Hospitals, Clinics, Foundations, Universities
	or other Institutions / Schools / Training Companies including Commercial
	Event Providers) engaged, directly or indirectly, for reaching a common
	objective: the advancement of medical research in benefit of the patient.
	The Disclosure in aggregate form to HCPs is provided only for specific
	conditions.
Aggregate	Transfers of value made for research and development activities are
Disclosure	disclosed according to Efpia Code.
